- Development, qualification and implementation of application-oriented educational programs
- Long-Standing Partnership with Keio University
  - joint organization of different Short Courses since 2007

Keio University

# Summer School at RWTH Aachen University

## Spend your time abroad in Germany

- Study abroad: 3 weeks in Germany at RWTH Aachen University
- Teaching: On campus
- Including: Comfortable Stay & Supporting Program
- Qualification: RWTH Aachen University Certificate
- Language: German & English

”

*(...) First of all, classes organized by RWTH were awesome. I could learn what you are not able to learn in other colleges, because of the tremendous facility and abundant knowledge, which means I could broaden my mind and discover what I wanted to do. There were some German classes, which were very fun. I am also interested in German too, so this class has motivated us to study German.*

*Secondly, it's the communication with students in RWTH. I was stimulated by them, realized how it is important to be able to speak English fluently and now I try to improve the skill of English (...)*

Culture 2023

Study abroad in Aachen

# Advantages of studying in Aachen

## Live where history meets technology in the heart of Europe

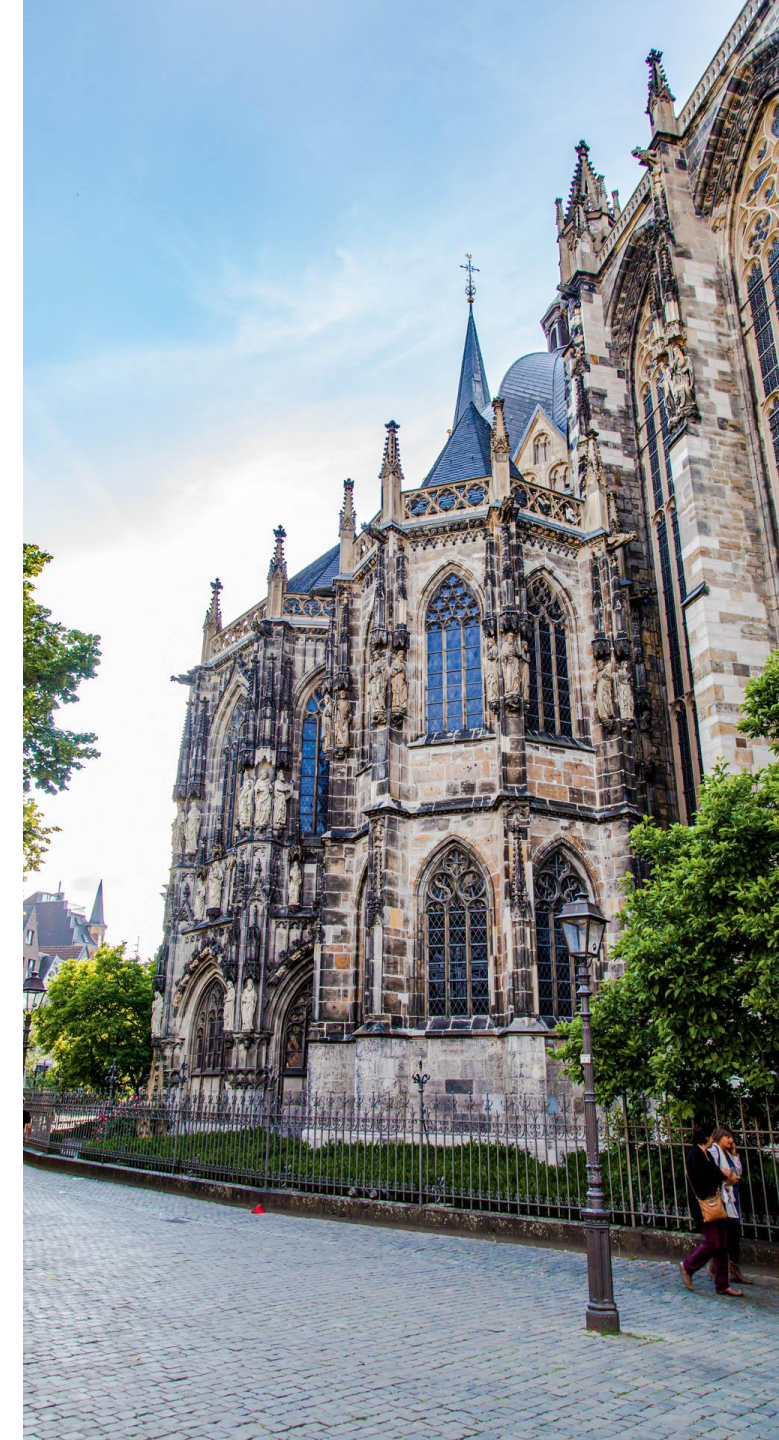

- Great infrastructure to move around comfortably
- European history and international culture
- Short travel distances to cities such as Amsterdam, Brussels, Cologne or Paris
- International business location, research institutes and innovative start-ups

*I spent the best three weeks in Aachen I have ever spent. This summer school allowed me to learn about Germany and engineering and to use my English in a practical way. In addition to this, I gained a great group of friends. These are people I would have only met through this course. These fellow students and my experience in Aachen have motivated me to learn more.*
